

2026 US CYBER CHALLENGE

CIO/CISO AWARDS DINNER AND ROUNDTABLE *SPONSORSHIP OPPORTUNITIES*

SEPTEMBER 23, 2026 | GALLOP HEADQUARTERS IN
WASHINGTON, DC

ABOUT THE USCC CIO/CISO AWARDS DINNER

We're thrilled to be taking the US Cyber Challenge (USCC) cybersecurity engagement to the next level. Federal executives from across government who have participated in the US Cyber Challenge (USCC) program, past and present, will be in attendance or have been invited to join us for this inaugural event, bringing together an exceptional community of government cybersecurity leaders, industry partners, and the next generation of cyber talent.

This first-of-its-kind event marks an exciting next chapter for USCC, elevating the program and creating new opportunities for engagement between government, industry, and emerging cybersecurity professionals.

The event will recognize the **top six teams** competing in the 2026 USCC National CyberBowl and culminate with the announcement of this year's **National CyberBowl Champion**. The competition will take place immediately prior to the event, giving attendees the opportunity to celebrate the accomplishments of some of the nation's most promising cybersecurity students.

Beyond the competition, attendees will hear directly from government and industry leaders during a timely panel discussion focused on the latest developments in **cybersecurity policy, priorities, and operations**.

Sponsors will have a unique opportunity to connect and build relationships across the federal cybersecurity community while engaging with the **top 24 cybersecurity students selected for the 2026 USCC Cybersecurity Cohort**.

Join us for an inaugural event that brings together today's cyber leaders and tomorrow's cybersecurity workforce, while taking the USCyber Challenge experience to the next level.
